Dear Sonya:

On behalf of the United States International University Sports Federation, congratulations on a fantastic World University Netball Championship! I know that Dr. Cunningham thoroughly enjoyed the event, as did I. From start to finish, you ran a first class event. The high level of competition, the overall atmosphere of the championship, the look and feel of the event, the facilities, the VIP hotel, the strong media output including the social media conversations, the "fun factor" during the competitions, as well as the skill and expertise of the volunteers all contributed to making this event so very successful. I have heard nothing but praise from those in attendance, as well as viewers of the live stream.

It certainly was a privilege and a pleasure to work with you throughout this process. Even though there were many challenges along the way, you and your team were masterful in overcoming those obstacles and pulling together a successful and memorable event.

You have such a passion for the sport of netball and such drive to ensure its growth in the United States. I hope we have the opportunity to work together again in the near future, for the benefit of university student-athletes in the United States as well as around the world.

Best wishes always.
