POLICY REVIEW

The child protection policy, its sub-policies, and all related policies will be reviewed annually and approved by the Board of Directors.

The Federal Child Abuse Prevention and Treatment Act (CAPTA) (42 U.S.C.A. § 5106g), as amended by the CAPTA Reauthorization Act of 2010, defines child abuse and neglect as, at minimum:

- "Any recent act or failure to act on the part of a parent or caretaker which results in death, serious physical or emotional harm, sexual abuse or exploitation"; or
- "An act or failure to act which presents an imminent risk of serious harm."
- This definition of child abuse and neglect refers specifically to parents and other caregivers. A "child" under this definition generally means a person who is younger than age 18 or who is not an emancipated minor.

While CAPTA provides definitions for sexual abuse and the special cases of neglect related to withholding or failing to provide medically indicated treatment, it does not provide specific definitions for other types of maltreatment such as physical abuse, neglect, or emotional abuse. While Federal legislation sets minimum standards for States that accept CAPTA funding, each State provides its own definitions of maltreatment within civil and criminal statutes.

All coaches, volunteers and staff working with children must read the [Fact Sheet on 'What is Child Abuse and Neglect? Recognizing the Signs and Symptoms'](#) published in 2013 by the Child Welfare Information Gateway.

CHILD PROTECTION PROCEDURES

Any issues of suspected child abuse must be taken seriously and handled in an appropriate manner that ensures the child's safety.

The Designated Person for Child Protection is responsible for ensuring that the procedure for reporting child abuse is effective and timely. If a member of staff has a child protection concern, then they must inform the Designated Person as soon as possible. You can contact the Designated Person for Child Protection Amara Mbionwu, at Amara@NetballAmerica.com or by calling +1-888-221-3650.

CONFIDENTIALITY AND INFORMATION SHARING

Keeping children safe requires the appropriate sharing of information subject to legal restrictions and the best interests of the child. Refer to [Netball America® Privacy Policy](#).

- Netball America® recognizes that all staff must act within the legal requirements of the Acts noted above and other state statutes. There are provisions within each of these acts for sharing information needed to protect children and enable other people to carry out their legitimate functions. In general staff will not share information if they believe that by doing so this will endanger the child.
- Staff may be asked to provide information to Child Protective Services (CPS) or Department of Social Services (DSS), the police, Court or lawyers and/or psychologists.
- Information sharing will be restricted to those who are designated as “need-to-know” in order to protect the child(ren) involved.
- When any of the above contacts a staff member for information that staff member must first refer to The Designated Person for Child Protection for clearance before providing the information.
- In the case of a Social Worker or Counsel for Child wishing to interview a child while in the care of Netball America®, the staff member must consult The Designated Person for Child Protection to be certain that such an interview will be undertaken legally and in the best interests of the child.
- A child’s records will be kept as factual as possible, and nothing will be recorded as fact without evidence to back it up. This means, for example, that no entry will be made on a child’s record about guardianship of a child without sighting the appropriate documentation.

RELATIONSHIP WITH EXTERNAL AGENCIES

- Netball America® will maintain a good working relationship with appropriate agencies that have specialist knowledge to help us protect children from abuse.
- Netball America® believes that in order to keep children safe, people who suspect or uncover abuse should not be tempted to deal with cases themselves. When there is a relationship of trust and understanding with the statutory agencies, people are more likely to report and enable professional investigation to ensue.
- A list of specialist agencies will be kept and updated by the Designated Person for Child Protection. A copy of this will be made available to all staff.
- Netball America® will also maintain relationships with NGOs and agencies that provide services to children and families. Netball America® encourages the networking of agencies, and staff will undertake an active program for maintaining the relationships between the agencies.
- Netball America® will respond to suspicions and allegations of child abuse by a member of staff in a manner which best ensures children’s or young persons’ immediate and long-term safety and will treat suspicions or allegations against a staff member with the same seriousness as suspicions or allegations made against any other person.

- Netball America® will not act alone and will refer all suspected situations of child abuse to the relevant agency. The safety of the child will be the primary consideration, and no person in this organization will collude to protect an adult or an organization.
- When abuse is suspected, or an allegation made against a staff member, the first consideration will be to ensure the safety of child.
- When abuse is suspected, staff will follow the process for Responding to Suspected Child Abuse included in this policy.
- When there are suspicions of abuse by a staff member, both staff and children's rights are to be attended to. This means that the safety of the child is of first concern, and that the staff member must have access to legal and professional advice.
- The person managing the child abuse issue will not be the same person as that managing the employment issue.
- The suspected staff member (or volunteer) will be prevented from having further unsupervised access to children during any investigation and will be informed fully of their rights.
- Staff will declare to a senior person any situation where there could be a conflict of interest, and provision made on a case-by-case basis about who will handle the process.
- If a child discloses abuse, staff will also follow the guide outlined here.
- Netball America® recognizes the added stress to fellow staff in such a situation and will ensure support is available.
- A risk assessment must be undertaken to determine what level of access, if any, that person should have, to other children.
- If the police decide to undertake a criminal investigation then the member of staff may be suspended, without prejudice, as a precautionary measure. It is important that no internal investigation is undertaken, and no evidence gathered that might prejudice the criminal investigation.
- If Netball America® is aware that a member of staff it has placed on precautionary suspension also works with children for another organization, either as an employee or a volunteer, it should ensure that the other organization is informed of the suspension and the subsequent outcome. Consultation with relevant agencies will determine how this information is conveyed.
- If there is insufficient evidence to pursue a criminal prosecution, then a disciplinary investigation may still be undertaken if there is "reasonable cause to suspect" that abuse may have occurred. The allegation may represent inappropriate behavior or poor practice by a member of staff which needs to be considered under internal disciplinary procedures.

Netball America® ensures that all staff working with children, both paid and voluntary, have been appropriately vetted and screened. Netball America® will also ensure qualified personnel will be assigned to the appropriate children's program and that personnel will have completed all mandatory training requirements.

DEFINITIONS

- “Screening” means an internal process for identifying suitable candidates – in this case, those who can be relied on to keep children in the care of Netball America® safe.
- Screening is about following a process to collect enough information that Netball America® having assessed the risks, that the applicant is safe to work with children in the role they are applying for. More specifically, it means verifying their identity, gathering information about them through application forms, interviews, resumes and reference checks, and finally performing vetting procedures.
- “Vetting” means the formal process of obtaining checks from another agency, e.g. criminal record checks, fingerprint and background checks.

TRAINING

- Netball America® recognizes that induction training for new employees is critical to the safety of children and all staff whether paid or unpaid will attend induction training on child abuse. They will also be required to attend training to understand and carry out the child protection policy, and their further training needs will be identified.
- All new staff will undertake an induction program that requires them to read and understand specific material and information about child abuse.

8. TO **ENJOY THEMSELVES**

Children have the right to participate in activities they consider fun and which foster the development of friendships, the prime motivations for many to participate.

- Coaches and administrators should create the conditions to help them find comfort and happiness, and which in turn can facilitate a love of sport, self-learning, mastery, and sustained engagement.

Here's how we honor this right:

Netball America is committed to using sport as a platform to empower youth for peace and strong futures, while increasing participation in sports, all while learning the fun globally popular sport of Netball.

We honor this right through:

- designing of a fun empowerment, nutrition and physical fitness program that takes pressure off youth having to lose weight, be athletes, or be rough in sports and instead focuses them on participation in fun-filled activities and games;
- using the rules of Netball to teach the rules of life; and
- creating an environment for kids, parents, coaches and community partners to share their experiences and recognize their achievements!

**With the rights of youth as a foundation, we can
build a better house for all of sports.**
