Since 2010, ladies and co-ed Netball teams from around the world compete for the titles of U.S. Open Netball Champion! Netball is played by 20 million people in over 70 countries and was the original women's basketball, however the biggest differences today are no backboard, no dribbling, no contact and 3 seconds to make a pass. Netball is a grass-roots sport in the USA, so we have various levels of ability, from highly competitive to social teams. The event aims to develop American athletes, coaches, and umpires.
